Independent Auditors' Report

The President and Corporation Brown University:

Opinion

We have audited the financial statements of Brown University (the University), which comprise the balance sheets as of June 30, 2022 and 2021, and the related statements of activities, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the University as of June 30, 2022 and 2021, and the changes in its net assets and its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud
 or error, and design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the University's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the University's ability to continue as a going concern for a reasonable
 period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Notes to Financial Statements
June 30, 2022 and 2021

(1) Summary of Significant Accounting Policies

(a) Organization

Brown University (the University or Corporation) is a private, not-for-profit, nonsectarian, co-educational institution of higher education with approximately 6,670 undergraduate students and 3,000 graduate and medical students. Established in 1764, Brown University offers educational programs for undergraduates in liberal arts and engineering, professional training for students pursuing a career in medicine, and graduate education and training in the arts and sciences, engineering and medicine.

(b) Basis of Presentation and Tax Status

The accompanying financial statements are presented on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP) and present balances and transactions according to the existence or absence of donor-imposed restrictions.

The John Nicholas Brown Center for the Study of American Civilization and certain entities established by the University's investment office that holds certain investment funds, are all separate legal entities that are consolidated in the financial statements. Brown University and these consolidated entities are collectively referred to herein as the University. All significant inter-entity transactions and balances have been eliminated.

(c) Tax Status

The University is a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code, as amended, and is generally exempt from income taxes. The University assesses uncertain tax positions and determined that there are no such positions that have a material effect on the financial statements.

For fiscal year 2022, the University was subject to the federal excise tax of 1.4% on net investment income imposed on colleges and universities meeting certain criteria under the Tax Cuts and Jobs Act signed into law on December 22, 2017. Net investment income includes interest, dividends, and net realized gains on the sale of investments and other assets subject to the tax. Additionally, the University has made provisions for a deferred tax liability. The deferred tax liability represents future excise tax payable on unrealized gains in excess of the tax basis of investments. The current and deferred liabilities are included within accounts payable and accrued expenses on the balance sheet and in net investment return and other changes on the statement of activities.

(d) Classification of Net Assets

Net assets, revenues, and gains and losses are classified based on the existence or absence of donor-imposed restrictions into two classes of net assets. Accordingly, net assets of the University are classified and reported as follows:

- Without donor restrictions Net assets that are not subject to donor-imposed stipulations.
- With donor restrictions Net assets subject to donor-imposed stipulations that are more specific
 than broad limits resulting from a not-for-profit's nature, environment in which it operates and
 incorporating documents. Some donors impose restrictions that are temporary in nature for
 example, stipulating that resources be used only after a specific date, for particular programs or

Notes to Financial Statements June 30, 2022 and 2021

services, or to acquire buildings and equipment. Other donors impose restrictions that are perpetual in nature, for example, donor-restricted endowment funds stipulating that resources be maintained in perpetuity.

Revenues are reported as increases in net assets without donor restrictions unless their use is limited by donor-imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments are reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulations or by law. The University is incorporated in and subject to the laws of Rhode Island, which contain the provisions outlined in the Uniform Prudent Management of Institutional Funds Act (UPMIFA). Under UPMIFA, the net assets of a donor-restricted endowment fund may be appropriated for expenditure by the Corporation of the University in accordance with the standard of prudence prescribed by UPMIFA.

(e) Fair Value Measurements

Investments, funds held in trust by others, and interest rate swaps are reported at fair value in the University's financial statements. Fair value represents the price that would be received upon the sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants as of the measurement date. The University uses a three-tiered hierarchy to categorize those assets and liabilities based on the valuation methodologies employed. The hierarchy is defined as follows:

- Level 1 Valuation based on quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities;
- Level 2 Valuations based on inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 Valuation based on unobservable inputs used in situations in which little or no observable market data is available.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. The University utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible. Transfers between categories occur when there is an event that changes the inputs used to measure the fair value of an asset or liability. Transfers between fair value categories are recognized at the end of the reporting period.

Investments measured at net asset value as a practical expedient to estimate fair value are not categorized in the fair value hierarchy.

(f) Statements of Activities

The statements of activities separately report changes in net assets from operating and nonoperating activities. Operating activities consist principally of revenues and expenses related to ongoing educational and research programs, including endowment return appropriated by the Corporation to support those programs. Nonoperating activities consist of net investment return, an offset for endowment return appropriated for operating activities, changes in fair values of interest rate swaps, change in pension plan and other long-term obligations, contributions for long-term purposes, net assets released from donor restrictions for property placed in service, and other activities not in direct support of annual operations.

Notes to Financial Statements June 30, 2022 and 2021

Revenue from contracts with customers is recognized when control of the promised goods or services is transferred in an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services (i.e., the transaction price). Revenues are derived from various sources, as follows:

• Revenue from student education, residence, and dining services is determined based on published rates and is billed and reflected net of reductions from institutional student aid, which may be funded by endowment funds or other institutional resources. Such revenue is recognized as the services are provided over the academic year, which generally aligns with the University's fiscal year. Aid in excess of a student's tuition and fees is reflected as a reduction of residence and dining charges. Disbursements made directly to students for living costs or other purposes are reported as an expense. Payments for student services are generally received prior to the commencement of each academic term and are reported as student deposits (contract liabilities) to the extent services will be rendered in the following fiscal year. The student deposits (contract liabilities) are included in deferred revenue on the balance sheets and was \$48,605 and \$50,799 at June 30, 2022 and 2021, respectively.

The composition of student tuition and fee revenue was as follows for the years ended June 30, 2022 and 2021:

		2022	2021
Undergraduate \$	6	481,870	381,477
Graduate and masters programs		185,662	172,219
Tuition and fees		667,532	553,696
Less university scholarships		(254,851)	(222,861)
Net tuition and fees \$	S	412,681	330,835

Sales and services of auxiliary enterprises revenues are recognized when goods or services are provided to students and customers. Auxiliary enterprises revenues consisted of the following for the years ended June 30, 2022 and 2021:

	 2022	2021
Residence, dining and health services Bookstore, rental and other auxiliary income	\$ 103,186 25.633	54,826 8,078
Booketere, remai and other daxillary moome	 20,000	3,3.3
Total	\$ 128,819	62,904

9

Notes to Financial Statements
June 30, 2022 and 2021

Contributions, including unconditional promises from donors reported as contributions receivable, are recognized at fair value in the period received and are classified based upon the existence or absence of donor-imposed restrictions. Expirations of donor-imposed restrictions are reported as net assets released from restrictions. Contributions which impose donor restrictions that are met in the same fiscal year they are received are reported as increases in net assets without donor restrictions. Bequest intentions and conditional promises are not recorded in the University's financial statements.

- Grants and contracts awarded by federal and other sponsors, which generally are considered nonexchange transactions restricted by sponsors for certain purposes, are recognized as revenue when qualifying expenditures are incurred and conditions under the agreements are met. The University has elected the simultaneous release policy available under ASU 2018-08, which allows a not-for-profit organization to recognize a restricted contribution directly in net assets without donor restrictions if the restriction is met in the same period that the revenue is recognized. Total revenue from grants and contracts recognized in net assets without donor restrictions was \$263,065 and \$236,053 for the years ended June 30, 2022 and 2021, respectively. Payments received from sponsors in advance of conditions being met are reported as grant advances, which totaled \$49,045 and \$38,510 as of June 30, 2022 and 2021, respectively. Conditional awards from federal sponsors outstanding as of June 30, 2022 were \$460,307.
- Dividends, interest and realized and unrealized gains (losses) on investments are reported as
 increases (decreases) in (1) net assets with donor restrictions if the terms of the contributions
 require them to be added to principal or if the terms of the related contributions impose restrictions
 on their availability or use; or (2) net assets without donor restrictions in all other cases. Investment
 return attributable to donor-restricted endowment funds is reported as net assets with donor
 restrictions to the extent not appropriated and spent.

Expenses are reported as decreases in net assets without donor restrictions.

(g) Cash Equivalents

For purposes of the statements of cash flows, cash equivalents, except for those held by investment managers and those held as collateral for debt or interest rate swaps, consist of money market funds and investments with original maturities of three months or less and are carried at cost, which approximates fair value.

(h) Accounts and Notes Receivable and Other Assets

Accounts receivable and other assets include amounts due from students, reimbursements due from sponsors of externally funded research, accrued income on investments, inventory and prepaid expenses. Notes and accounts receivable are presented net of an allowance for uncollectible amounts.

(i) Land, Buildings and Equipment

Land, buildings and equipment are stated at cost of acquisition or construction (including capitalized interest) or, to the extent received as a gift, at estimated fair value at the time of receipt, and are presented net of accumulated depreciation. All other expenditures for maintenance and repairs are charged to operating activities as incurred.

Notes to Financial Statements
June 30, 2022 and 2021

Depreciation is calculated using the straight-line method with estimated useful lives of 30-to-40 years for buildings, 20-to-30 years for building improvements, and 3-to-15 years for equipment, depending upon asset class. Depreciation on buildings that support research efforts are componentized and depreciated over useful lives ranging from 15–40 years.

(j) Fund Held in Trust by Others

Funds held in trust by others represent funds that are held and administered by outside trustees, including perpetual trusts established by donors of \$34,546 and \$40,821 at June 30, 2022 and 2021, respectively. The University receives all or a specified portion of the return on the underlying assets of most of the trusts, which is primarily restricted for scholarships. Most of these trust interests are classified in Level 3 in the fair value hierarchy. Other trusteed funds of \$1,673 and \$9,293 at June 30, 2022 and 2021, respectively, represent debt proceeds to be utilized for construction projects or otherwise required to be held as collateral or in reserve in accordance with debt or interest rate swap agreements. These are classified in Level 1 in the fair value hierarchy because the underlying securities held by the trustee are based on quoted market prices.

(k) Collections

The University's collections include works of art, historical treasures, and artifacts that are maintained in the University's libraries and museums. These collections are protected and preserved for education and research purposes. The collections are not recognized as assets in the financial statements of the University.

(I) Derivatives

The University uses derivatives for both debt and investment-related purposes. Interest-rate swaps, as described in note 7 (c), are initially used to manage interest-rate risk by fixing the rate on associated variable-rate debt issuances. In addition, certain of the University's investment strategies utilize various derivative financial instruments for a number of investment purposes, including hedging or altering exposure to certain asset classes and cost-effectively adding exposures to portions of the portfolio. Positions are expected to create gains or losses which, when combined with the applicable portion of the total investment portfolio, provide an expected result. Among the derivative instruments that may be entered from time to time include total return swaps to manage exposures in equity markets, foreign currency forward contracts to manage currency exposures in the portfolio. The University has established policies and procedures to monitor and manage risks related to these instruments. In connection with its investment derivative activities, the University generally maintains master netting agreements and collateral agreements with its counterparties. The agreements provide the University the right, in the event of default by the counterparty, to net a counterparty's rights and obligations under the agreement and to liquidate and offset collateral against any net amount owed by the counterparty.

(m) Liabilities Associated with Investments

The University may, from time to time, incur liabilities associated with its investments portfolio as a result of securities sold short or other transactions. In order to terminate a short position, the University must acquire and deliver to the lender a security identical to the one it borrowed and sold short, and a realized gain or loss is recognized for the difference between the short sale proceeds and the cost of the identical security acquired. Liabilities reported on the balance sheets at June 30, 2022 and 2021 include \$0 and \$35,376, respectively, representing the fair value of identical securities that must be

Notes to Financial Statements
June 30, 2022 and 2021

acquired to settle obligations to the lender. The liabilities would be classified as Level 1 in the fair value hierarchy given that they are measured based on quoted market prices. In addition, liabilities associated with investments include the fair value swaps and futures of \$3,997 and \$2,937 entered into in fiscal 2022 and 2021, respectively.

(n) Other Long-Term Obligations

Other long-term obligations consisted of the following for the years ended June 30, 2022 and 2021:

	 2022	2021
Federal student loan advances	\$ 7,793	11,720
Split interest obligations	12,683	13,926
Asset retirement obligations	18,741	17,767
Interest-rate swap liabilities	 22,131	48,355
Total	\$ 61,348	91,768

(o) Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the dates of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. Significant estimates made by management include the valuation of certain investments and the actuarially determined pension benefits.

(p) Risks and Uncertainties

In March 2020, the World Health Organization declared the novel coronavirus (COVID-19) a pandemic. Although it is not possible to determine the pandemic's ultimate length, severity, or impacts on the economy or the University's finances, the University could experience adverse effects posed by the risks, or our stakeholders' perceptions of the risks, related to COVID-19.

The University announced its Plan for a Healthy and Safe 2020-21 in July 2020, providing the roadmap for the steps Brown is taking to mitigate the impact of the global COVID-19 pandemic during the phased resumption of on-campus instruction and operations. The Plan for a Healthy and Safe 2020-21 included a one-time transition to three semesters and an extensive COVID-19 testing program. The University returned to normal operations for academic year 2021-22.

(q) Recent Issued Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), as amended, that requires, among other things, a lessee to recognize a right-of-use asset representing an entity's right to use the underlying asset for the lease term and a liability for lease payments on the balance sheet, regardless of classification of a lease as an operating or finance lease. As permitted by the ASU, for leases with a term of twelve months or less as a lessee, the University has elected not to recognize lease assets and liabilities and account for the lease similar to existing guidance for operating leases. The University adopted ASU 2016-02 in fiscal year 2021 using the modified retrospective approach. Right-of-use

Notes to Financial Statements
June 30, 2022 and 2021

assets and related lease obligations of \$105,502 were recognized as of July 1, 2020 and are included in the balance sheet. The guidance did not materially impact the University's results of operations.

(r) Leasing

The University determines if an arrangement is a lease at inception. The University has leases for which it is a lessor. Operating leases are included in right of use assets, and the related lease obligations in the balance sheet.

Lease right-of-use assets represent the University's right to use an underlying asset for the lease term. Lease obligations represent the University's liability to make lease payments arising from the lease. Operating lease right-of-use assets and related obligations are recognized at commencement date based on the present value of lease payments over the lease term discounted using an appropriate incremental borrowing rate. The incremental borrowing rate is based on the information available at commencement date in determining the present value of lease payments. The value of an option to extend or terminate a lease is reflected to the extent it is reasonably certain management will exercise that option. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

Rental income arising from operating leases as a lessor is included in operating revenue in other sources in the statement of activities. The cash paid for amounts included in the measurement of these liabilities, under ASC 842, for operating leases for the year ended June 30, 2022 was \$8,927.

(2) Liquidity and Availability

Financial assets available for general expenditures within one year of June 30 are as follows:

	_	2022	2021
Financial assets:			
Cash and cash equivalents	\$	450,842	724,876
Accounts receivable, net		48,898	58,627
Pledge receivables available for operations		33,095	18,134
Working capital investments		400,662	440,611
Approved endowment income appropriated for upcoming fiscal			
year	_	241,322	194,632
Total financial assets available within one year		1,174,819	1,436,880
Liquidity resources:			
Taxable commercial paper		125,000	125,000
Bank line of credit	_	150,000	100,000
Total financial assets and liquidity resources			
available within one year	\$_	1,449,819	1,661,880

Notes to Financial Statements June 30, 2022 and 2021

The University manages its financial assets to be available as its operating expenditures, liabilities and other obligations come due. In addition, the University invests cash in excess of daily requirement in short-term investments or fixed income securities. To supplement working capital, the University has a \$150,000 line of credit and a \$125,000 taxable commercial paper program at June 30, 2022.

Additionally, the University has Corporation-designated endowments of \$886,825 and \$960,328 as of June 30, 2022 and 2021, respectively. Although the University does not intend to spend from its Corporation-designated endowment funds, other than amounts appropriated for general expenditure, as part of its annual budget approval and appropriation process, amounts from its Corporation-designated endowment funds could be made available if necessary. However, both the Corporation-designated funds and donor-restricted endowment funds contain investments with liquidity constraints, of which \$2,464,445 can be liquidated on a daily to quarterly basis at June 30, 2022 (refer to note 4 for disclosures about investments).

(3) Contributions Receivable

The University's contributions receivable are recognized net of discounts at rates commensurate with the risks involved and after allowances for uncollectible accounts are reported at net realizable value, which approximates fair value. Contributions receivable were as follows at June 30:

	2022	2021
Contributions expected to be received in:		
Less than one year	\$ 96,902	79,136
Between one and five years	206,932	162,341
More than five years	138,889	131,739
Gross contributions receivable	442,723	373,216
Unamortized discount (at rates ranging from 0.3% to 4.8%)		
and allowance for uncollectibles	(79,766)	(66,659)
Contributions receivable, net	\$ 362,957	306,557

At June 30, 2022, the University had conditional promises to give of \$225,332. These conditional promises to give are not recognized as assets or revenue in the financial statements.

Notes to Financial Statements
June 30, 2022 and 2021

(4) Investments

Investment Strategy

In addition to traditional stocks and fixed-income securities, the University may also hold shares or units in institutional funds as well as in alternative investment funds involving absolute return, private equity and real asset strategies. Absolute return strategies involve funds whose managers have the authority to invest in various asset classes at their discretion, including the ability to invest long and short. Funds with absolute return strategies generally hold securities or other financial instruments for which a ready market exists and may include stocks, bonds, put or call options, swaps, currency hedges and other instruments, and are valued accordingly. Private equity funds employ buyout and venture capital strategies and may focus on investments in turn-around situations. Real asset funds generally hold interests in public real estate investment trusts (REITs), commercial properties, commodities, or oil and gas, generally through commingled funds. Private equity and real asset strategies therefore often require the estimation of fair values by fund managers in the absence of readily determinable market values.

Investments also include assets related to donor annuities, pooled income funds, and charitable remainder trusts. Certain of these funds are held in trust by the University for one or more beneficiaries who are generally paid lifetime income, after which the principal is made available to the University in accordance with donor restrictions, if any. The assets are reported at fair value and related liabilities, which are reported as split-interest obligations, represent the present value of estimated future payments to beneficiaries.

Basis of Reporting

Investments are reported at estimated fair value. If an investment is held directly by the University and an active market where quoted prices exists, the market price of an identical security is used to report fair value. Fair values for shares in registered mutual funds are based on published share prices. The University's interests in alternative investment funds are generally reported at the net asset value (NAV) reported by the fund managers and assessed as reasonable by the University, which is used as a practical expedient to estimate the fair value of the University's interest therein, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. At June 30, 2022 and 2021 the University had no plans or intentions to sell investments at amounts different from NAV.

Because of the inherent uncertainties of valuation, these estimated fair values may differ significantly from values that would have been used had a ready market existed, and the differences could be material. Such valuations are determined by fund managers and generally consider variables such as operating results, comparable earnings multiples, projected cash flows, recent sales prices, and other pertinent information, and may reflect discounts for the illiquid nature of certain investments held.

Notes to Financial Statements
June 30, 2022 and 2021

The following tables summarize the University's investments by strategy type as of June 30, 2022 and 2021:

				2022

Registered mutual funds and directly held equity securities are classified in Level 1 of the fair value hierarchy. Investments classified in Level 2 and 3 consist of directly held investments that have valuations based on inputs other than quoted prices.

Certain funds contain "rolling" lock-up provisions. Under such provisions, tranches of the investment are available for redemption once every two to five years, if the University makes a redemption request prior to the next available withdrawal date in accordance with the notification terms of the agreement. Private equity and real assets are held in funds that have initial terms of ten to twelve years with extensions of one to three years, and have an average remaining life of approximately four to seven years.

The following tables present activities for the years ended June 30, 2022 and 2021 for the University's investments classified in Level 3:

				2022		
Level 3 roll forward		Equities	Fixed income	Private equity	Real assets	Total
Fair value as of June 30, 2021 Acquisitions	\$	41,370 1,096	3,216	55,715 3,178	56,453 25,000	156,754 29,274

Net realized and unrealized gains (losses)	210,623	(167)	(976)	4,981	(746)	213,715	
Fair value at June 30, 2021 \$	41.370	3.216	55.715	56.453	_	156.754	

There were no transfers between Levels 1 and 2 and no transfers between Levels 2 and 3 in 2022 and 2021, respectively.

Total investment return is included in the statements of activities as follows for the years ended June 30:

		2022	2021
Operating:			
Endowment return appropriated	\$	195,059	182,099
Included in other income		14,527	9,973
Nonoperating activities:			
Net investment return		(354,201)	2,377,307
Endowment return appropriated	_	(195,059)	(182,099)
Total return	\$	(339,674)	2,387,280

Total investment management and advisory expenses, including internal costs, were \$27,405 and \$19,523 for the years ended June 30, 2022 and 2021, respectively, and have been netted against the total return.

(a) Liquidity

Investment liquidity as of June 30, 2022 and 2021 is aggregated below based on redemption or sale ability:

		2022								
	_	Daily	Monthly	Quarterly	Subject to rolling lock-ups	Illiquid	Total			
Equities	\$	414.811	57.044	378.045	99.694	75.103	1.024.697			
Fixed income	•	129,909	_	131,278	51,356	106,083	418,626			
Absolute return		<i>'</i> —	169,850	772,017	546,897	23,353	1,512,117

Real assets		67,187	_	_	_	372,834	440,021			
Cash and cash equivaler	nts _	344,304					344,304			
Total	\$_	956,211	226,894	1,281,340	878,615	3,438,974	6,782,034			

Notes to Financial Statements
June 30, 2022 and 2021

					2021			
	_	Daily	Monthly	Quarterly	Semi- annually to annually	Subject to rolling lock-ups	Illiquid	Total
Equities	\$	280,108	119,047	485,323	448,224	104,715	73,756	1,511,173
Fixed income		144,887		131,807	· —	25,000	77,291	378,985
Absolute return		2	131,169	801,449	_	863,015	30,107	1,825,742
Private equity		_			_	158,566	2,729,316	2,887,882
Real assets		94,848	38,882	_	_	_	247,468	381,198
Cash and cash equivalents	_	240,790						240,790
Total	\$_	760,635	289,098	1,418,579	448,224	1,151,296	3,157,938	7,225,770

Investments with daily liquidity generally do not require advance notice prior to withdrawal. Investments with monthly, quarterly, semi-annual, and annual redemption frequency typically require notice periods, ranging from 5 to 180 days, at June 30, 2022 and 2021.

(b) Commitments

Private equity and real asset investments are generally made through limited partnerships. Under the terms of these agreements, the University is obligated to remit additional funding periodically as capital or liquidity calls are exercised by the manager. These partnerships have a limited existence, generally ten years, and such agreements may provide for annual extensions for the purpose of disposing portfolio positions and returning capital to investors. However, depending on market conditions, the inability to execute the fund's strategy, and other factors, a manager may extend the terms of a fund beyond its originally anticipated existence or may wind the fund down prematurely. As a result, the timing and amount of future capital or liquidity calls expected to be exercised in any particular future year is uncertain. The aggregate amount of unfunded commitments associated with private equity, real assets and private credit as of June 30, 2022 and 2021 was \$1,416,121 and \$1,019,846, respectively.

(c) Investment Derivatives

The University's investment-related derivative positions, categorized by primary underlying risk, are as follows as of June 30, 2022 and 2021:

	_	2022			
		Long notional	Short notional	Unrealized gain (loss)	
Instrument type:					
Total return swaps	\$	72,773	_	(3,923)	

Notes to Financial Statements
June 30, 2022 and 2021

	_		2021	
	_	Long notional	Short notional	Unrealized gain (loss)
Instrument type:				
Total return swaps	\$	145,970	_	17,425
Futures and options	_	255,427		4,092
Total	\$_	401,397		21,517

Contracts in a net asset position are included in investments on the balance sheets, and contracts in a net liability position are included in liabilities associated with investments on the balance sheets and are as follows as of June 30, 2022 and 2021:

	 2022	2021
Instrument type included in investments:		
Total return swaps	\$ 87	19,248
Futures and options	_	5,206
Instrument type included in liabilities associated with investments:		
Total return swaps	\$ 4,010	1,823
Futures and options	_	1,114

(5) Endowment

The University's endowment consists of approximately 3,400 individual funds established for a variety of purposes, including both donor-restricted endowment funds and funds designated by the Corporation to function as endowments. Net assets associated with the endowment are classified and reported based upon the existence or absence of donor-imposed restrictions.

Endowment net assets consist of the following at June 30, 2022:

	_	Without donor restrictions	With donor restrictions	Total
Donor-restricted endowment funds:				
Historical gift value	\$	_	1,929,573	1,929,573
Appreciation		_	3,262,095	3,262,095
Corporation-designated endowment funds	_	886,825	62,750	949,575
Total endowment net assets	\$_	886,825	5,254,418	6,141,243

Notes to Financial Statements June 30, 2022 and 2021

Endowment net assets consist of the following at June 30, 2021:

	_	Without donor restrictions	With donor restrictions	Total
Donor-restricted endowment funds:				
Historical gift value	\$	_	1,786,756	1,786,756
Appreciation		_	3,710,943	3,710,943

Contributions	41	126,733	126,774
Reclassifications and other changes	89	(10,352)	(10,263)
Endowment net assets, June 30, 2021	\$ 960,328	5,559,847	6,520,175

Notes to Financial Statements
June 30, 2022 and 2021

(a) Interpretation of Relevant Laws

In accordance with UPMIFA, the University considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- · The duration and preservation of the fund
- The purposes of the University and the donor-restricted endowment fund
- · General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the University
- The investment policies of the University

(b) Funds with Deficiencies

From time to time, the fair value of assets associated with an individual donor-restricted endowment fund may fall below the fund's historic dollar value. Deficiencies of this nature are reported in net assets with donor restrictions. As of June 30, 2022, funds with original gift value of \$87,277 were underwater by \$6,390. There were no donor-restricted endowment funds underwater at June 30, 2021.

(c) Return Objectives and Risk Parameters

The University has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets, including both donor-restricted and designated funds. The long-term investment return objective is formulated to maintain purchasing power after accounting for both inflation and spending. The Corporation has set a long-term return goal at 5.5% above the higher education price index. Actual returns in any given year or period of years may vary from this amount.

(d) Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the University relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The University targets a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints.

(e) Spending Policy and How the Investment Objectives Relate to Spending Policy

The University invests its endowment funds and allocates the related return for expenditure in accordance with the total return concept. The endowment utilization is determined in accordance with the policy adopted by the Corporation. This policy fixes the spending range between 4.5% and 5.5% of the average fair value of applicable endowments over the prior twelve quarters, with the objective being to hold the spending rate to no more than a 5% average over time. Applicable endowments include Corporation-designated and donor-restricted endowment funds.

Notes to Financial Statements June 30, 2022 and 2021

(6) Land, Buildings and Equipment

Land, buildings and equipment include the following at June 30:

		2022	2021
Land	\$	104,995	93,323
Buildings		882,528	798,992
Improvements		1,349,054	1,318,731
Equipment		249,827	247,710
Construction in progress	_	237,222	128,815
		2,823,626	2,587,571
Accumulated depreciation		(1,362,723)	(1,292,389)
Land, buildings and equipment, net	\$	1,460,903	1,295,182

Outstanding commitments on uncompleted construction contracts total \$103,503 at June 30, 2022.

Notes to Financial Statements
June 30, 2022 and 2021

(7) Bonds, Loans and Notes Payable

The University has entered into various agreements primarily for the purpose of financing the acquisition, renovation, and improvement of its facilities. The bonds, loans and notes payable outstanding for these purposes are as follows:

	Interest	Type	Final		Balance a	t June 30

(a) Tax Exempt Bonds

The University's tax-exempt debt, primarily Facilities Revenue Bonds, is issued through RIHEBC, a state agency serving as a conduit issuer of tax exempt debt. The University is required under certain of its financing agreements with RIHEBC to appropriate funds from operating and other net assets for payment of principal and interest and for maintenance of the related properties. The Revenue Bonds currently outstanding were issued primarily to finance new and ongoing capital projects, student housing, academic, research and administrative buildings, and infrastructure.

In September 2021, the University paid down Series 2011 tax-exempt bonds in the amount of \$33,780 and the commercial bank term loan in the amount of \$71,000. In addition, in September 2021, the University made a bullet payment of \$57,640 on Series 2012 tax-exempt bond.

Notes to Financial Statements
June 30, 2022 and 2021

(b) Taxable Bonds and Other Debt

In September 2020, the University issued taxable bonds with a total par value of \$365,000 at an interest rate of 2.92%, maturing in fiscal year 2051; to add to the Series 2020A taxable bonds issued in May 2020. The bonds were sold at a premium of \$37,026, resulting in an effective yield of 2.44%. The proceeds will be used for general corporate purposes.

In May 2020, Series 2020A taxable bonds were issued in the amount of \$300,000 at interest rates of 1.91% to 2.92%, maturing in 2051. The proceeds will be used for general purposes, capital projects, and may also be used to pay down existing debt.

The University has a \$125,000 Taxable Commercial Paper Program that allows for the issuance of Standard Commercial Paper Notes, Series A. This unsecured, taxable promissory notes can be issued in various amounts with maturities no greater than 270 days. At June 30, 2022 and 2021, there were no outstanding notes.

Principal payments of bonds, notes and loans payable as of June 30, 2022 for each of the succeeding five fiscal years ending June 30 and thereafter are as follows:

Fiscal year:		
2023	\$	67,185
2024		7,105
2025		9,215
2026		9,645
2027		8,460
Thereafter	_	1,101,770
Total	\$_	1,203,380

At June 30, 2022 and 2021, the University had a \$150,000 and \$100,000 committed line of credit, respectively. The \$150,000 line of credit matures in May 2024 and is available at a rate of Bloomberg short-term bank yield index rate plus 40 basis points. As of June 30, 2022 and 2021, there were no amounts drawn or outstanding.

The University has two stand-by bond purchase agreements with financial institutions totaling approximately \$124,000 in the event that the Series 2003B and Series 2005A bonds cannot be remarketed. The \$85,500 agreement expired in November 2020 and was substituted with a comparable agreement, which matures in December 2023. The \$38,935 agreement matures January 2023. There were no amounts outstanding at June 30, 2022 and 2021, under these agreements, nor has either agreement ever been called upon.

The University provided self-liquidity for its taxable commercial paper program at June 30, 2022 and 2021.

Notes to Financial Statements
June 30, 2022 and 2021

(c) Interest Rate Swaps

At June 30, 2022 and 2021, the University had two interest-rate swap agreements in place to effectively convert a portion of its variable-rate debt to fixed rates until maturity of the associated bonds. The notional amounts for the JPMorgan swap and the \$85,500 Goldman Sachs swap match the par amounts of the bonds and amortize at the same rate as the associated debt.

As of June 30, the following interest-rate swap agreements were outstanding:

	Associated	Expiration	une 30, 2022 remaining notional	Swap fixed	Fair value o	•
Counterparty	debt	date	 value	rate	2022	2021
JP Morgan	Series 2003B	9/1/2043	\$ 38,505	3.732 % \$	(8,842)	(15,697)
Goldman Sachs	Series 2005A	5/1/2035	85,500	3.979	(12,463)	(30,467)
Goldman Sachs	None	9/1/2032	11,238	3.891	(826)	(2,191)
				\$ <u>_</u>	(22,131)	(48,355)

The variable rate on the two Goldman Sachs swaps is based on the USD-BMA Municipal Swap Index. The variable rate on the JPMorgan swap is based on 67% of one-month LIBOR-BBA. The Goldman Sachs swaps require posting of collateral by either party at thresholds based on their respective credit ratings. Cash collateral must be posted by the University if the aggregate mark-to-market liability payable by the University exceeds \$25,000. The JPMorgan swap stipulates that if the University meets a minimum credit rating there are no collateral posting requirements. There was no collateral posting requirement at June 30, 2022.

Interest rate volatility, remaining outstanding notional value and time to maturity will affect each swap's fair value at subsequent reporting dates. To the extent the University holds a swap through its expiration date, the swap's fair value will reach zero. Because the swap fair values are based predominantly on observable inputs corroborated by market data, they are classified in Level 2 in the GAAP fair value hierarchy.

(8) Retirement Benefits

The University participates in two contributory retirement plans. The expense to the University, representing its contributions to the accounts of faculty and staff, was \$32,418 and \$21,833 for the years ended June 30, 2022 and 2021, respectively.

The University also has a non-qualified deferred compensation plan under IRC 457(b) that is offered to a select group of employees. Assets are held by a custodian on behalf of the University and are restricted for payments to participants and beneficiaries. At June 30, 2022 and 2021, total assets held by the University were \$37,311 and \$40,924, respectively, and included in investments on the balance sheet. A corresponding liability is included in retirement obligations.

Notes to Financial Statements
June 30, 2022 and 2021

The Brown University Food Services and Plant Operations Employees' Pension Plan is a qualified, noncontributory defined benefit plan which provides pensions for certain full-time weekly paid employees. The policy of the University is to fund pension costs in accordance with the Employee Retirement Income Security Act of 1974, as amended.

Information regarding the defined benefit pension plan for the years ended June 30 is as follows:

	 2022	2021
Change in projected benefit obligation:		
Projected benefit obligation at beginning of year	\$ 143,481	140,483
Service cost	5,810	6,055
Interest cost	3,860	3,595
Benefits paid	(4,077)	(3,485)
Actuarial gain	 (33,806)	(3,167)
Projected benefit obligation at end of year	\$ 115,268	143,481

The actuarial gain in 2022 primarily relates to the increase in the discount rate from 2.72% at June 30, 2021 to 4.42% at June 30, 2022.

The projected benefit obligation was determined using the following assumptions as of June 30:

	2022	2021
Discount rate	4.42 %	2.72 %
Rate of compensation increase	3.00	3.00

The following is a summary of activity under the plan for the years ended June 30:

	-	2022	2021
Change in plan assets:			
Fair value of plan assets at beginning of year	\$	109,467	85,613
Actual return on plan assets		(13,790)	24,839
Contributions		3,000	2,500
Benefits paid	-	(4,077)	(3,485)
Fair value of plan assets at end of year		94,600	109,467
Projected benefit obligation at end of year	_	(115,268)	(143,481)
Funded status included in retirement obligations	\$	(20,668)	(34,014)

Notes to Financial Statements
June 30, 2022 and 2021

	 2022	2021
Net periodic pension cost:		
Service cost	\$ 5,810	6,055
Interest cost	3,860	3,595
Expected return on assets	(5,120)	(3,999)
Amortization of unrecognized loss and prior service cost	 429	2,646
Net periodic pension cost	\$ 4,979	8,297

Net periodic pension cost was determined using the following assumptions for the years ended June 30:

	2022	2021
Discount rate	2.72 %	2.56 %
Rate of compensation increase	3.00	3.00
Expected long-term rate of return	4.70	4.70

The expected rate of return on plan assets was derived based upon assumptions of inflation, real returns, anticipated value added by the investment manager and expected asset class allocations.

Net periodic pension cost is reflected in operating activities on the statements of activities. As of June 30, 2022 and 2021, items not yet recognized as components of net periodic pension cost are unrecognized prior service cost of \$691 and \$812, respectively, and a net unrecognized actuarial loss of \$2,728 and \$17,932, respectively. These changes affecting the funded status of the plan are included in other changes, net in nonoperating activities in the statements of activities.

The plan assets at June 30, 2022 and 2021 consist of variable annuity investments with various equity and fixed income focuses, which are classified as Level 1 in the GAAP fair value hierarchy.

The investment strategy for the Plan takes into account several factors consistent with the characteristics of an employee pension plan. As such, the strategy recognizes a long-term time horizon where a substantial allocation to equities is appropriate and will help to maximize returns; broad diversification in order to increase return and reduce risk; and investment in institutional retirement annuities that serves to reduce administrative costs.

Notes to Financial Statements June 30, 2022 and 2021

The actual asset allocation for the pension plan as of June 30, 2022 and 2021, and the weighted average asset targeted allocation are as follows:

		Actual			
	Target	2022	2021		
Equity funds	75 %	75 %	79 %		
Fixed income funds	25	25	21		
Total	100 %	100 %	100 %		

The University's estimated contribution for 2023 is \$3,500.

Estimated future benefit payments as of June 30, 2022 are as follows:

Fiscal year:	
2023	\$ 4,778
2024	4,864
2025	5,146
2026	5,444
2027	5,741
2028–2032	33,436

Notes to Financial Statements June 30, 2022 and 2021

(9) Net Assets

The University's net assets as of June 30 are as follows:

		2022	2021
Without donor restrictions:			
Corporation-designated endowment funds	\$	886,825	960,328
Investment in plant, net		439,117	295,207
University operations		169,495	311,525

Total with donor restrictions	_	6,036,529	6,247,071
	\$	7,531,966	7,814,131

(10) Functional Classification of Expenses

The statements of activities present expenses by natural classification. The University also summarizes its operating expenses by functional classification. Functional categories are reported after allocating, on a square footage basis, expenses for operation and maintenance of plant, interest on indebtedness, and depreciation.

Notes to Financial Statements
June 30, 2022 and 2021

Operating expenses by nature and function are summarized as follows for the fiscal year ended June 30, 2022:

	2022						
		Instruction and epartmental research	Sponsored programs	Academic and student support	Auxiliary services	Institutional support	Total
Salaries and wages	\$	207,212	69,611	86,627	33,511	73,289	470,250
Employee benefits		55,163	19,791	23,804	9,181	25,898	133,837
Graduate student support		11,250	19,140	68,076	_	_	98,466
Purchased services		34,358	54,937	20,758	13,185	21,441	144,679

	\$_	333,671	172,320	293,965	115,059	143,942	1,058,957

(11) Commitments and Contingencies

All funds expended in conjunction with government grants and contracts are subject to audit by governmental agencies. In the opinion of management, any potential liability resulting from these audits will not have a material effect on the University's financial position.

The University is a defendant in various legal actions arising in the normal course of its operations. Although the final outcome of such actions cannot currently be determined, the University believes that the ultimate unrecognized liability, if any, will not have a material effect on the University's financial position.

Notes to Financial Statements
June 30, 2022 and 2021

(12) Related-Party Transactions

Members of the Corporation and senior management may, from time to time, be associated either directly or indirectly with companies doing business with the University. The University has a written conflict of interest policy that requires annual reporting by each Corporation member and University senior management. When such relationships exist, measures are taken to mitigate any actual or perceived conflict, including requiring that such transactions be conducted at arms' length, based on terms that are fair and reasonable to and in the best interest of the University.

Effective July 1, 2017, the University, along with The Neurology Foundation, Inc.; University Emergency Medicine Foundation; University Medicine Foundation; University Surgical Associates, Inc.; Brown Urology, Inc.; and Brown Dermatology, Inc. (collectively the Foundations), joined to create the nonprofit Brown Physicians, Inc. (BPI). BPI is an affiliated clinical practice that will enhance the partnership between the Foundations and the Warren Alpert Medical School. Under the formation and support agreement, the University is obligated to pay BPI \$25,000 over a 10-year period. In 2022, the University paid \$2,500 to BPI, with the remaining \$10,000 included in accounts payable and accrued liabilities at June 30, 2022. In addition, the University authorized a line of credit agreement with BPI, up to \$30,000. There was no amount outstanding under the line of credit at June 30, 2022.

(13) Supplemental Disclosure of Cash Flow Information

Following is information intended to supplement the statements of cash flows for the years ended June 30:

	 2022	2021
Cash paid for interest, including recurring swap settlements,		
net of capitalized interest of \$5,159 and \$3,454	\$ 38,922	38,993
Increase (decrease) in accounts payable for land, buildings		
and equipment	3,361	(5,934)
(Decrease) increase in payables for purchases of investments	(34,316)	31,969

(14) Subsequent Events

In July 2022, the University issued through RIHEBC tax exempt bonds with a par value of \$87,220 at an interest rate of 5%, maturing in 2034. The bonds were sold at a premium of \$13,519, resulting in an effective yield of 3.11%. The proceeds will be used to fund construction projects.

In September 2022, the University paid the final bullet payment in the amount of \$60,600 on the Series 2012 bonds, effectively retiring the series.

The University considers events or transactions that occur after the balance sheet date, but before the financial statements are issued, to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure. These financial statements were issued October 21, 2022, and subsequent events have been evaluated through that date.

See accompanying notes to supplementary schedule of expenditures of federal awards.

Notes to Supplementary Schedule of Expenditures of Federal Awards Year ended June 30, 2022

(1) Basis of Presentation

The accompanying supplementary schedule of expenditures of federal awards (the Schedule) summarizes the expenditures of Brown University (the University) under programs funded by the federal government for the year ended June 30, 2022. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.* Because the Schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net assets or cash flows of the University.

For purposes of the Schedule, federal awards include all grants, contracts and similar agreements entered into directly between the University and agencies and departments of the federal government and all subawards to the University by nonfederal organizations pursuant to federal grants, contracts and similar agreements. The Schedule also denotes awards passed through from the University to other nonfederal subrecipient organizations.

(2) Significant Accounting Policies

For purposes of the Schedule, expenditures for federal award programs are recognized as incurred using the accrual method of accounting and the cost accounting principles. Under these cost principles, certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

Expenditures under the research and development cluster include facilities and administrative (F&A) cost recoveries, relating primarily to facilities operation and maintenance; facilities and equipment depreciation; and general, divisional, and departmental administration services, which are charged to applicable federal grants under negotiated rates agreed to with DHHS, the University's federal cognizant agency. The University has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

(3) Federal Student Financial Assistance

Student Loan Programs

The Federal Perkins Loan and Health Professional Student Loan programs are administered directly by the University and balances and transactions relating to these programs are included in the University's financial statements. Loan activities and balances consist of the following:

	Federal CFDA number		Balance as of June 30, 2021	Loans issued	Payments received and other adjustments	Balance as of June 30, 2022
Perkins Loan Program Health Professions Student	84.038	\$	10,770,184	_	(3,042,039)	7,728,145
Loans (HPSL)	93.342	_	373,954	28,000	(223,066)	178,888
Totals		\$	11,144,138	28,000	(3,265,105)	7,907,033

Notes to Supplementary Schedule of Expenditures of Federal Awards Year ended June 30, 2022

Congress did not renew the Federal Perkins Loan Program after September 2017 and the transition period permitting disbursements ended June 30, 2018. Therefore, no new loans have been awarded after September 2017 and the University will continue to service outstanding loans throughout the repayment period. For the year ended June 30, 2022, the University did not recover an administrative cost allowance under the Federal Perkins Loan Program.

Federal Direct Loans

Federally guaranteed loans awarded to students of the University during the year ended June 30, 2022 are summarized as follows:

Subsidized Stafford Loan Program	\$ 1,966,250
Unsubsidized Stafford Loan Program	21,654,025
PLUS Loan Program	 13,810,965
Total	\$ 37,431,240

The University is responsible only for the performance of certain administrative duties relating to Federal Direct Loans and, accordingly, these loans are not included in the University's financial statements. It is not practical to determine the balances of loans outstanding to students of the University under this program as of June 30, 2022.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

The President and Corporation Brown University:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Brown University (the University), which comprise the University's balance sheet as of June 30, 2022, and the related statements of activities, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated October 21, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

The President and Corporation Brown University:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Brown University's (the University) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2022. The University's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the University complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the University's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the University's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the University's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS,

Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the University's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and
 perform audit procedures responsive to those risks. Such procedures include examining, on a test basis,
 evidence regarding the University's compliance with the compliance requirements referred to above and
 performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the University's internal control over compliance relevant to the audit in order to
 design audit procedures that are appropriate in the circumstances and to test and report on internal control
 over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an
 opinion on the effectiveness of the University's internal control over compliance. Accordingly, no such
 opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the University as of and for the year ended June 30, 2022, and have issued our report thereon dated October 21, 2022, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards for the year ended June 30, 2022 is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the 2022 financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2022 financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2022 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the 2022 financial statements or to the 2022 financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the 2022 financial statements as a whole.
