Independent Auditors' Report

The President and Corporation Brown University:

Report on the Financial Statements

We have audited the accompanying financial statements of Brown University (the University), which comprise the balance sheets as of June 30, 2017 and 2016, the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Brown University as of June 30, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

Other Matter - Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplementary schedule of expenditures of federal awards for the year ended June 30, 2017 is presented for purposes of additional analysis, as required by Title 2 U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary schedule of expenditure of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 24, 2017 on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Brown University's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

October 24, 2017, except as to the supplementary schedule of expenditures of federal awards, which is as of February 14, 2018

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

(1) Summary of Significant Accounting Policies

(a) Organization

Brown University is a private, not-for-profit, nonsectarian, co-educational institution of higher education with approximately 6,300 undergraduate students and 2,800 graduate and medical students. Established in 1764, Brown University offers educational programs for undergraduates in liberal arts and engineering, professional training for students pursuing a career in medicine, and graduate education and training in the arts and sciences, engineering and medicine.

(b) Basis of Presentation and Tax Status

The accompanying financial statements are presented on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP) and present balances and transactions according to the existence or absence of donor-imposed restrictions.

The John Nicholas Brown Center for the Study of American Civilization; Farview Incorporated, a real estate holding company; KARING, a Rhode Island not-for-profit corporation that holds certain property of the Warren Alpert Medical School; and certain entities established by the University's investment office that holds certain investment funds, are all separate legal entities that are consolidated in the financial statements. Brown University and these consolidated entities are collectively referred to herein as the University. All significant inter-entity transactions and balances have been eliminated.

The University is a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code, as amended, and is generally exempt from income taxes. The University assesses uncertain tax positions and determined that there are no such positions that have a material effect on the financial statements.

(c) Classification of Net Assets

The University is incorporated in and subject to the laws of Rhode Island, which contain the provisions outlined in the Uniform Prudent Management of Institutional Funds Act (UPMIFA). Under UPMIFA, the net assets of a donor-restricted endowment fund may be appropriated for expenditure by the Corporation of the University (the Corporation) in accordance with the standard of prudence prescribed by UPMIFA. The University has classified its net assets as follows:

- Permanently restricted net assets contain donor-imposed stipulations that neither expire with the passage of time nor can be fulfilled or otherwise removed by actions of the University and primarily consist of the historic dollar value of contributions to establish or add to donor-restricted endowment funds.
- Temporarily restricted net assets contain donor-imposed stipulations as to the timing of their availability or use for a particular purpose. These net assets are released from restrictions when the specified time elapses or actions have been taken to meet the restrictions. Net assets of donor-restricted endowment funds in excess of their historic dollar value are classified as temporarily restricted net assets until appropriated by the Corporation and spent in accordance with the standard of prudence imposed by UPMIFA and in accordance with the donors intent.

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

• Unrestricted net assets contain no donor-imposed restrictions and are available for the general operations of the University. Such net assets may be designated by the Corporation for specific purposes, including to function as endowment funds.

(d) Fair Value Measurements

Investments, funds held in trust by others, and interest rate swaps are reported at fair value in the University's financial statements. Fair value represents the price that would be received upon the sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants as of the measurement date. The University uses a three-tiered hierarchy to categorize those assets and liabilities based on the valuation methodologies employed. The hierarchy is defined as follows:

- Level 1 Valuation based on quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities;
- Level 2 Valuations based on inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 Valuation based on unobservable inputs used in situations in which little or no market data is available.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. The University utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible. Transfers between categories occur when there is an event that changes the inputs used to measure the fair value of an asset or liability. Transfers between fair value categories are recognized at the end of the reporting period.

Investments measured at net asset value as a practical expedient to estimate fair value are not categorized in the fair value hierarchy.

(e) Statements of Activities

The statements of activities separately report changes in net assets from operating and nonoperating activities. Operating activities consist principally of revenues and expenses related to ongoing educational and research programs, including endowment return appropriated by the Corporation to support those programs. Nonoperating activities consist of net investment return, an offset for endowment return appropriated for operating activities, changes in fair values of interest rate swaps, change in pension plan and other long-term obligations, contributions for long-term purposes, net assets released from donor restrictions for property placed in service, and other activities not in direct support of annual operations.

Revenues are derived from various sources, as follows:

 Tuition and fees are recognized at established rates, net of financial aid and scholarships provided directly to students, in the period in which the sessions are primarily provided. Deposits and other advance payments are reported as a liability. Sales and services of auxiliary enterprises are recognized at the time the services are provided.

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

- Contributions, including unconditional promises from donors reported as contributions receivable, are recognized at fair value in the period received and are classified based upon the existence or absence of donor-imposed restrictions. Expirations of donor-imposed restrictions are reported as net assets released from restrictions. Contributions subject to donor-imposed stipulations that are met in the same reporting period are reported as unrestricted revenue. Bequest intentions and conditional promises are not recorded in the University's financial statements.
- Government grants and contracts normally provide for the recovery of direct and indirect costs, subject to audit. The University recognizes revenue associated with direct and indirect costs as direct costs are incurred. The recovery of indirect costs is pursuant to an agreement which provides for a predetermined fixed indirect cost rate. Payments received in advance of grant and contract expenditures are reported as a liability.
- Dividends, interest and realized and unrealized gains (losses) on investments are reported as increases (decreases) in (1) permanently restricted net assets if the terms of the contributions require them to be added to principal; (2) temporarily restricted net assets if the terms of the related contributions impose restrictions on their availability or use; or (3) unrestricted net assets in all other cases. Investment return attributable to donor-restricted endowment funds is reported as temporarily restricted to the extent not appropriated and spent.

Expenses are reported as decreases in unrestricted net assets.

(f) Cash Equivalents

For purposes of the statements of cash flows, cash equivalents, except for those held by investment managers, consist of money market funds and investments with original maturities of three months or less and are carried at cost, which approximates fair value.

(g) Accounts Receivable and Other Assets and Notes Receivable

Accounts receivable and other assets include amounts due from students, reimbursements due from sponsors of externally funded research, accrued income on investments, inventory and prepaid expenses. Notes and accounts receivable are presented net of an allowance for uncollectible amounts.

(h) Land, Buildings and Equipment

Land, buildings and equipment are stated at cost of acquisition or construction (including capitalized interest) or, to the extent received as a gift, at estimated fair value at the time of receipt, and are presented net of accumulated depreciation. All other expenditures for maintenance and repairs are charged to operating activities as incurred.

Depreciation is calculated using the straight-line method with estimated useful lives of 30-to-40 years for buildings, 20-to-30 years for building improvements, and 3-to-15 years for equipment, depending upon asset class.

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

(i) Fund Held in Trust by Others

Funds held in trust by others represent funds that are held and administered by outside trustees, including perpetual trusts established by donors of \$29,439 and \$39,312 at June 30, 2017 and 2016, respectively. The University receives all or a specified portion of the return on the underlying assets of most of the trusts, which is primarily restricted for scholarships. Most of these trust interests are classified in Level 3 in the fair value hierarchy. Other trusteed funds of \$6,091 and \$35,743 at June 30, 2017 and 2016, respectively, represent debt proceeds to be utilized for construction projects or otherwise required to be held as collateral or in reserve in accordance with debt or interest rate swap agreements. These are classified in Level 1 in the fair value hierarchy because the underlying securities held by the trustee are based on quoted market prices.

(j) Federal Student Loan Advances

The University holds certain amounts advanced by the U.S. government under the Federal Perkins Loan Program and the Health Professions Student Loan Program (the Programs). Such amounts may be re-loaned by the University after collection; however, in the event that the University no longer participates in the Programs, the amounts are generally refundable to the U.S. government.

(k) Collections

The University's collections include works of art, historical treasures, and artifacts that are maintained in the University's libraries and museums. These collections are protected and preserved for education and research purposes. The collections are not recognized as assets in the financial statements of the University.

(I) Derivatives

The University uses derivatives for both debt and investment-related purposes. Interest-rate swaps, as described in note 6 (*c*), are initially used to manage interest-rate risk by fixing the rate on associated variable-rate debt issuances. In addition, certain of the University's investment strategies utilize various derivative financial instruments for a number of investment purposes, including hedging or altering exposure to certain asset classes and cost-effectively adding exposures to portions of the portfolio. Positions are expected to create gains or losses which, when combined with the applicable portion of the total investment portfolio, provide an expected result. Among the derivative instruments that may be entered from time to time include total return swaps to manage exposures in equity markets, foreign currency forward contracts to manage currency exposures in the portfolio. The University has established policies and procedures to monitor and manage risks related to these instruments. In connection with its investment derivative activities, the University generally maintains master netting agreements and collateral agreements with its counterparties. The agreements provide the University the right, in the event of default by the counterparty, to net a counterparty's rights and obligations under the agreement and to liquidate and offset collateral against any net amount owed by the counterparty.

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

(m) Liabilities Associated with Investments

The University may, from time to time, incur liabilities associated with its investments portfolio as a result of securities sold short or other transactions. In order to terminate a short position, the University must acquire and deliver to the lender a security identical to the one it borrowed and sold short, and a realized gain or loss is recognized for the difference between the short sale proceeds and the cost of the identical security acquired. Liabilities reported on the balance sheets at June 30, 2017 and 2016 include \$148,753 and \$72,456, respectively, representing the fair value of identical securities that must be acquired to settle obligations to the lender. The liabilities would be classified as Level 1 in the fair value hierarchy given that they are measured based on quoted market prices. In addition, liabilities associated with investments include the fair value of total return swaps \$9,201 and \$2,294 entered into in fiscal 2017 and 2016, respectively.

(n) Other Long-Term Obligations

Other long-term obligations include the funded status of the defined benefit pension plan of \$26,362 and \$39,221 at June 30, 2017 and 2016, respectively; interest-rate swap liabilities aggregating \$40,882 and \$59,356 at June 30, 2017 and 2016, respectively; and asset retirement obligations of \$14,981 and \$13,306 at June 30, 2017 and 2016, respectively.

(o) Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the dates of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

(2) Contributions Receivable

The University's contributions receivable are recognized net of discounts at rates commensurate with the risks involved and after allowance for uncollectibles are reported at net realizable value, which approximates fair value. Contributions receivable were as follows at June 30:

	 2017	2016
Contributions expected to be received in:		
Less than one year	\$ 44,291	80,946
Between one and five years	96,540	87,293
More than five years	 45,147	25,030
Gross contributions receivable	185,978	193,269
Unamortized discount (at rates ranging from 0.7% to 4.8%)		
and allowance for uncollectibles	 (27,754)	(22,365)
Contributions receivable, net	\$ 158,224	170,904

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

(3) Investments

Investment Strategy

In addition to traditional stocks and fixed-income securities, the University may also hold shares or units in institutional funds as well as in alternative investment funds involving hedged, private equity and real asset strategies. Hedged strategies involve funds whose managers have the authority to invest in various asset classes at their discretion, including the ability to invest long and short. Funds with hedged strategies generally hold securities or other financial instruments for which a ready market exists and may include stocks, bonds, put or call options, swaps, currency hedges and other instruments, and are valued accordingly. Private equity funds employ buyout and venture capital strategies and may focus on investments in turn-around situations. Real asset funds generally hold interests in public real estate investment trusts (REITs), commercial properties or commodities, or oil and gas, generally through commingled funds. Private equity and real asset strategies therefore often require the estimation of fair values by fund managers in the absence of readily determinable market values.

Investments also include assets related to donor annuities, pooled income funds, and charitable remainder trusts. Certain of these funds are held in trust by the University for one or more beneficiaries who are generally paid lifetime income, after which the principal is made available to the University in accordance with donor restrictions, if any. The assets are reported at fair value and related liabilities, which are reported as split-interest obligations, represent the present value of estimated future payments to beneficiaries.

Basis of Reporting

Investments are reported at estimated fair value. If an investment is held directly by the University and an active market with quoted prices exists, the market price of an identical security is used to report fair value. Fair values for shares in registered mutual funds are based on published share prices. The University's interests in alternative investment funds are generally reported at the net asset value (NAV) reported by the fund managers and assessed as reasonable by the University, which is used as a practical expedient to estimate the fair value of the University's interest therein, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. At June 30, 2017 and 2016, the University had no plans or intentions to sell investments at amounts different from NAV.

Because of the inherent uncertainties of valuation, these estimated fair values may differ significantly from values that would have been used had a ready market existed, and the differences could be material. Such valuations are determined by fund managers and generally consider variables such as operating results, comparable earnings multiples, projected cash flows, recent sales prices, and other pertinent information, and may reflect discounts for the illiquid nature of certain investments held.

Notes to Financial Statements June 30, 2017 and 2016

(Dollars in thousands)

The following tables summarize the University's investments by strategy type as of June 30, 2017 and 2016:

Total	\$_	2,769,829	592,584	81,768	86,424	3,530,605			

Registered mutual funds and directly held equity securities are classified in Level 1 of the fair value hierarchy. Investments classified in Level 2 and 3 consist of directly held investments that have valuations based on inputs other than quoted prices.

Certain funds contain "rolling" lock-up provisions. Under such provisions, tranches of the investment are available for redemption once every two to five years, if the University makes a redemption request prior to the next available withdrawal date in accordance with the notification terms of the agreement. Private equity and real assets are held in funds that have initial terms of ten to twelve years with extensions of one to three years, and have an average remaining life of approximately three to six years.

Notes to Financial Statements June 30, 2017 and 2016

Julie 30, 2017 and 201

(Dollars in thousands)

The following tables present activities for the years ended June 30, 2017 and 2016 for the University's investments classified in Level 3:

	2017						
Level 3 roll forward		Equities	Fixed income	Private equity	Real assets	Hedged strategies	Total
Fair value as of June 30, 2016	\$	678	43,201	2,842	39,703	_	86,424
Acquisitions		—	6,459	—	8,559	1,000	16,018

(losses)	_	(76)	6,697	(555)	(1,300)		4,766		
Fair value at June 30, 2016	\$_	678	43,201	2,842	39,703		86,424		

On June 30, 2016, the University reclassified \$22,185 in commercial real estate from land, building and equipment to investments. The commercial real estate will be held for long-term investment purposes, is carried at fair value, and is classified in Level 3 of the fair value hierarchy. There were no transfers between Levels 1 and 2 and no transfers between Levels 2 and 3 in 2017 and 2016, respectively.

The following summarizes investment return components for the years ended June 30, 2017 and 2016:

	 2017	2016
Interest and dividends	\$ 24,577	17,002
Net realized and unrealized gains (losses), net of investment		
management and advisory expenses	 396,398	(53,967)
Investment return	\$ 420,975	(36,965)

Notes to Financial Statements June 30, 2017 and 2016

(Dollars in thousands)

Total investment return is included in the statements of activities as follows for the years ended June 30:

	 2017	2016
Operating:		
Endowment return appropriated	\$ 164,967	153,460
Included in other income	11,630	10,532
Nonoperating activities:		
Net investment return	409,345	(47,497)
Endowment return appropriated	 (164,967)	(153,460)
Total return	\$ 420,975	(36,965)

Total investment management and advisory expenses, including internal costs, were \$15,118 and \$18,816 for the years ended June 30, 2017 and 2016, respectively, and have been netted against the total return.

(a) Liquidity

Investment liquidity as of June 30, 2017 and 2016 is aggregated below based on redemption or sale ability:

Investments with daily liquidity generally do not require advance notice prior to withdrawal. Investments with monthly, quarterly, semi-annual, and annual redemption frequency typically require notice periods, ranging from 5 to 180 days, at June 30, 2017 and 2016.

(b) Commitments

Private equity and real asset investments are generally made through limited partnerships. Under the terms of these agreements, the University is obligated to remit additional funding periodically as capital or liquidity calls are exercised by the manager. These partnerships have a limited existence, generally ten years, and such agreements may provide for annual extensions for the purpose of disposing portfolio positions and returning capital to investors. However, depending on market conditions, the inability to execute the fund's strategy, and other factors, a manager may extend the terms of a fund beyond its originally anticipated existence or may wind the fund down prematurely. As a result, the timing and amount of future capital or liquidity calls expected to be exercised in any particular future year is uncertain. The aggregate amount of unfunded commitments associated with private equity and real assets as of June 30, 2017 was \$430,482 and \$101,084 respectively.

(c) Investment Derivatives

The University's investment-related derivative positions, categorized by primary underlying risk, are as follows as of June 30, 2017 and 2016:

	 2017				
	 ong notional	Short notional	Unrealized gain (loss)		
Instrument type:					
Total return swaps	\$ 144,306	(79,887)	(845)		
Foreign currency forwards	8,848	_	(105)		
Futures and options	 6,876	(91,792)	580		
Total	\$ 160,030	(171,679)	(370)		

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

			2016	
	_	Long notional	Short notional	Unrealized gain
Instrument type: Total return swaps Foreign currency forwards	\$	143,320 88,979	(44,829) (96,540)	3,493 578
Total	\$_	232,299	(141,369)	4,071

Contracts in a net asset position are included in investments on the balance sheets, and contracts in a net liability position are included in liabilities associated with investments on the balance sheets. At June 30, 2017 and 2016, the University held certain total return swaps in a net liability position of \$9,201 and \$2,157, respectively, as well as certain total return swaps in a net asset position of \$8,357 and \$5,650, respectively. At June 30, 2017 and 2016, the University held various foreign currency forward contracts in a net liability position of \$105 and \$434, respectively, and in a net asset position of \$1,012 at June 30, 2016. At June 30, 2017, the University held various futures and options contracts in a net liability position of \$124 and in a net asset position of \$7,035.

(4) Endowment

The University's endowment consists of approximately 2,990 individual funds established for a variety of purposes, including both donor-restricted endowment funds and funds designated by the Corporation to function as endowments. Net assets associated with the endowment are classified and reported based upon the existence or absence of donor-imposed restrictions.

Endowment net assets consist of the following at June 30, 2017:

	-	Unrestricted	Temporarily restricted	Permanently restricted	Total
Donor-restricted endowment funds Corporation-designated	\$	(1,362)	1,306,637	1,394,885	2,700,160
endowment funds	-	483,590	61,781		545,371
Total endowment net assets	\$	482,228	1,368,418	1,394,885	3,245,531

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

Endowment net assets consist of the following at June 30, 2016:

	-	Unrestricted	Temporarily restricted	Permanently restricted	Total
Donor-restricted endowment funds Corporation-designated	\$	(9,098)	1,132,476	1,315,362	2,438,740

Contributions	433	20,160	63,091	83,684
Reclassifications and other changes	1,859	(150)	1,865	3,574
Endowment at June 30, 2016	\$ 436,177	1,211,827	1,315,362	2,963,366

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

(a) Interpretation of Relevant Laws

The portion of donor-restricted endowment funds that is not classified as permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the University in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the University considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purposes of the University and the donor-restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the University
- The investment policies of the University

(b) Funds with Deficiencies

From time to time, the fair value of assets associated with an individual donor-restricted endowment fund may fall below the fund's historic dollar value. Deficiencies of this nature, which are reported in unrestricted net assets, aggregated \$1,362 and \$9,098 as of June 30, 2017 and 2016, respectively. These deficiencies resulted principally from investment losses and continued appropriation for certain programs that was deemed prudent by the Corporation. Subsequent gains that restore the fair value of the assets of these endowment funds to their historic dollar value will be classified as increases in unrestricted net assets.

(c) Return Objectives and Risk Parameters

The University has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets, including both donor-restricted and designated funds. The long-term investment return objective is formulated to maintain purchasing power after accounting for both inflation and spending. The Corporation has set a long-term return goal at 5.5% above the higher education price index. Actual returns in any given year or period of years may vary from this amount.

(d) Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the University relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The University targets a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints.

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

(e) Spending Policy and How the Investment Objectives Relate to Spending Policy

The University invests its endowment funds and allocates the related return for expenditure in accordance with the total return concept. The endowment utilization is determined in accordance with the policy adopted by the Corporation. This policy fixes the spending range between 4.5% and 5.5% of the average fair value of applicable endowments over the prior twelve quarters, with the objective being to hold the spending rate to no more than a 5% average over time. Applicable endowments include Corporation-designated and donor-designated endowment funds.

(5) Land, Buildings and Equipment

Land, buildings and equipment include the following at June 30:

	 2017	2016
Land	\$ 84,651	83,940
Buildings	642,702	641,432
Improvements	1,046,911	998,343
Equipment	203,800	187,667
Intangible assets	2,633	2,633
Construction in progress	 106,105	67,757
	2,086,802	1,981,772
Accumulated depreciation	 (987,059)	(917,141)
Land, buildings and equipment, net	\$ 1,099,743	1,064,631

Outstanding commitments on uncompleted construction contracts total \$33,322 at June 30, 2017.

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

(6) Bonds, Loans and Notes Payable

The University has entered into various agreements primarily for the purpose of financing the acquisition, renovation, and improvement of its facilities. The bonds, loans and notes payable outstanding for these purposes are as follows:

	Interest		Final		Balance a	t June 30
Name of issue	rate(s)	Type of rate	maturity		2017	2016

(a) Tax Exempt Bonds

The University's tax exempt debt, primarily Facilities Revenue Bonds, is issued through RIHEBC, a state agency serving as a conduit issuer of tax exempt debt. The University is required under certain of its financing agreements with RIHEBC to appropriate funds from operating and other net assets for payment of principal and interest and for maintenance of the related properties. The Revenue Bonds currently outstanding were issued primarily to finance new and ongoing capital projects, student housing, academic, research and administrative buildings, and infrastructure.

In October 2015, the University issued through RIHEBC tax-exempt direct placement bonds with a total par value of \$45,000 at a variable interest rate, maturing in 2046. The proceeds were used to redeem

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

\$17,000 of Series 2005 Taxable bonds and pay down \$14,470 of RIHEBC Tax-exempt commercial paper program, with remaining proceeds to be used for capital projects.

(b) Taxable Bonds and Other Debt

Series 2009 Taxable Bonds were issued to provide liquidity and to protect against a tightening in liquidity markets. In February 2017, the University redeemed \$55,000 of the Series 2009 Taxable Bond. The transaction resulted in a make whole redemption expense of \$3,934, which is included in other changes on the statement of activities.

In addition, the University implemented a Taxable Commercial Paper Program in November 2005. The program provides for the issuance, up to \$50,000, of Taxable Standard Commercial Paper Notes, Series A, and Taxable Extendible Commercial Paper Notes, Series B. The Taxable Commercial Paper Program has a number of individual notes that are issued at various times, amounts and staggered maturity dates. At June 30, 2016 there were no outstanding notes. The agreement allows the University to continue this revolving process until 2036.

In September 2015, the University borrowed \$50,000 through a commercial bank term loan at a variable rate of one-month LIBOR plus 30 basis points, maturing in September 2018. The proceeds were used to pay down \$50,000 outstanding in the Taxable Commercial Paper Program.

The University had also maintained a tax exempt commercial program through RIHEBC. This program was terminated in November 2015. Proceeds from the tax exempt commercial paper program had to be used within 18 months; however, once debt was issued, the University could continue to rollover the tax exempt commercial paper. As of June 30, 2017 and 2016, there was no amount outstanding.

Principal payments of bonds, notes and loans payable as of June 30, 2017 for each of the succeeding five fiscal years ending June 30 and thereafter are as follows:

Fiscal year:	
2018	\$ 12,035
2019	59,431
2020	57,098
2021	10,185
2022	68,293
Thereafter	 533,256
Total	\$ 740,298

In July 2015, the University established a \$100,000 line of credit, which matured in July 2016 and was subsequently renewed to mature in July 2017. As of June 30, 2017, the full amount of \$100,000 was available at a rate of 1.22%. In July 2017, the line of credit was renewed and increased to \$125,000 and will mature in July 2018. At June 30, 2016, the University also had a revolving line of credit available up to \$40,000. As of June 30, 2016, the full amount of \$40,000 was available at a rate of 1.22%. The line of credit was terminated in January 2017.

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

The University has two stand-by bond purchase agreements with financial institutions totaling approximately \$127,000 in the event that the Series 2003B and Series 2005A bonds cannot be remarketed. Financing obtained through these stand-by credit agreements to fund the repurchase of such bonds would bear interest rates different from those associated with the original bond issues. The agreements have various maturity dates between November 2017 and January 2020. There were no amounts outstanding at June 30, 2017 and 2016, respectively, under these agreements.

The University provided self-liquidity for its taxable commercial paper program at June 30, 2017 and 2016, respectively.

(c) Interest Rate Swaps

At June 30, 2017 and 2016, the University had two interest-rate swap agreements in place to effectively convert a portion of its variable-rate debt to fixed rates until maturity of the associated bonds. The notional amounts for the JPMorgan swap and the \$85,500 Goldman Sachs swap match and amortize at the same rate as the associated debt principal.

	Associated	Expiration	une 30, 2017 remaining notional	Swap fixed	Fair value at Jur	
Counterparty	debt	date	 value	rate	2017	2016
JP Morgan	Series 2003B	9/1/2043	\$ 41,175	3.732 % \$	(13,949)	(19,660)
Goldman Sachs Goldman Sachs	Series 2005A None	5/1/2035 9/1/2032	85,500 14.913	3.979 3.891	(24,520) (2,413)	(36,019)
Goluman Sachs	none	9/1/2032	14,913	5.691	(2,413)	(3,677)
				\$_	(40,882)	(59,356)

As of June 30, the following interest-rate swap agreements were outstanding:

The variable rate on the two Goldman Sachs swaps is based on the USD-BMA Municipal Swap Index. The variable rate on the JPMorgan swap is based on 67% of one-month LIBOR-BBA. The Goldman Sachs swaps require posting of collateral by either party at thresholds based on their respective credit ratings. Cash collateral must be posted by the University if the aggregate mark-to-market liability payable by the University exceeds \$25,000. The JPMorgan swap stipulates that if the University meets a minimum credit rating there are no collateral posting requirements. This rating was maintained by the University at June 30, 2017 and 2016. At June 30, 2017, the collateral posting requirement was \$1,933; however, \$4,100 was on deposit as collateral to ensure continuing collateral coverage.

Interest rate volatility, remaining outstanding notional value and time to maturity will affect each swap's fair value at subsequent reporting dates. To the extent the University holds a swap through its expiration date, the swap's fair value will reach zero. Because the swap fair values are based predominantly on observable inputs corroborated by market data, they are classified in Level 2 in the GAAP fair value hierarchy.

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

(7) Retirement Benefits

The University participates in two contributory retirement plans. The expense to the University, representing its contributions to the accounts of faculty and staff, was \$26,519 and \$23,255 for the years ended June 30, 2017 and 2016, respectively.

The Brown University Food Services and Plant Operations Employees' Pension Plan is a qualified, noncontributory defined benefit plan which provides pensions for certain full-time weekly paid employees. The policy of the University is to fund pension costs in accordance with the Employee Retirement Income Security Act of 1974, as amended.

Information regarding the defined benefit pension plan for the years ended June 30 is as follows:

	 2017	2016
Change in projected benefit obligation:		
Projected benefit obligation at beginning of year	\$ 104,293	86,784
Service cost	4,477	3,850
Interest cost	3,488	3,707
Benefits paid	(2,310)	(2,075)
Actuarial (gain) loss	 (9,550)	12,027
Projected benefit obligation at end of year	\$ 100,398	104,293

The projected benefit obligation was determined using the following assumptions as of June 30:

	2017	2016	
Discount rate	3.79 %	3.48 %	
Rate of compensation increase	3.00	3.00	

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

The following is a summary of activity under the plan for the years ended June 30:

	 2017	2016
Change in plan assets:		
Fair value of plan assets at beginning of year	\$ 65,072	67,160
Actual return on plan assets	8,774	(1,513)
Contributions	2,500	1,500
Benefits paid	 (2,310)	(2,075)
Fair value of plan assets at end of year	74,036	65,072
Projected benefit obligation at end of year	 (100,398)	(104,293)
Funded status included in other long-term		
obligations	\$ (26,362)	(39,221)
	 2017	2016
Net periodic pension cost:		
Service cost	\$ 4,477	3,850
Interest cost	3,487	3,707
Expected return on assets	(4,211)	(4,337)
Amortization of unrecognized loss and prior service cost	 1,994	1,150
Net periodic pension cost	\$ 5,747	4,370

Net periodic pension cost was determined using the following assumptions for the years ended June 30:

	2017	2016
Discount rate	3.48 %	4.33 %
Rate of compensation increase	3.00	3.00
Expected long-term rate of return	6.50	6.50

The expected rate of return on plan assets was derived based upon assumptions of inflation, real returns, anticipated value added by the investment manager and expected asset class allocations.

Net periodic pension cost is reflected in operating activities on the statements of activities. As of June 30, 2017 and 2016, items not yet recognized as components of net periodic pension cost are unrecognized prior service cost of \$1,014 and \$594, respectively, and a net unrecognized actuarial loss of \$20,519 and \$37,045, respectively. These changes affecting the funded status of the plan are included in other changes, net in nonoperating activities in the statements of activities.

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

The plan assets at June 30, 2017 and 2016 consist of variable annuity investments with various equity and fixed income focuses, which are classified as Level 1 in the GAAP fair value hierarchy.

The investment strategy for the Plan takes into account several factors consistent with the characteristics of an employee pension plan. As such, the strategy recognizes a long-term time horizon where a substantial allocation to equities is appropriate and will help to maximize returns; broad diversification in order to increase return and reduce risk; and investment in institutional retirement annuities that serves to reduce administrative costs.

The actual asset allocation for the pension plan as of June 30, 2017 and 2016, and the weighted average asset targeted allocation are as follows:

		Actual		
	Target	2017	2016	
Equity funds	75 %	75 %	76 %	
Fixed income funds	25	25	24	
Total	100 %	100 %	100 %	

The University's estimated contribution for 2018 is \$2,500.

Estimated future benefit payments as of June 30, 2017 are as follows:

\$ 2,917
3,106
3,335
3,585
3,862
24,211
\$

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

(8) Restricted Net Assets

The University's restricted net assets as of June 30 are as follows:

	_	2017		20	16
	_	Temporarily restricted	Permanently restricted	Temporarily restricted	Permanently restricted
Endowment	\$	1,368,418	1,394,885	1,211,827	1,315,362
Contributions receivable		84,137	74,087	88,330	82,574
Donor-restricted purposes		107,443	45,105	103,771	41,254
Donor-restricted for plant-purposes		135,362	_	54,745	_
Student loans	_	13,189		12,433	
Total	\$_	1,708,549	1,514,077	1,471,106	1,439,190

(9) Functional Classification of Expenses

Functional categories are reported after allocating, on a square footage basis, expenses for operation and maintenance of plant, interest on indebtedness, and depreciation. Operating expenses incurred in the fiscal years ended June 30 were as follows:

	 2017		
Instruction and departmental research	\$ 335,115	322,449	
Sponsored programs	128,405	116,431	
Academic and student support	215,949	204,254	
Auxiliary services	100,361	100,594	
Institutional support	 102,070	94,501	
	\$ 881,900	838,229	

(10) Commitments and Contingencies

All funds expended in conjunction with government grants and contracts are subject to audit by governmental agencies. In the opinion of management, any potential liability resulting from these audits will not have a material effect on the University's financial position.

The University is a defendant in various legal actions arising in the normal course of its operations. Although the final outcome of such actions cannot currently be determined, the University believes that the ultimate unrecognized liability, if any, will not have a material effect on the University's financial position.

Notes to Financial Statements June 30, 2017 and 2016 (Dollars in thousands)

(11) Related-Party Transactions

Members of the Corporation and senior management may, from time to time, be associated either directly or indirectly with companies doing business with the University. The University has a written conflict of interest policy that requires annual reporting by each Corporation member and University senior management. When such relationships exist, measures are taken to mitigate any actual or perceived conflict, including requiring that such transactions be conducted at arms' length, based on terms that are fair and reasonable to and in the best interest of the University.

(12) Supplemental Disclosure of Cash Flow Information

Following is information intended to supplement the statements of cash flows for the years ended June 30:

	 2017	2016
Cash paid for interest, including recurring swap settlements, net of capitalized interest of \$480 and \$1,809	\$ 32,439	33,216
Noncash investing activities: (Decrease) increase in accounts payable for land, buildings		
and equipment Increase (decrease) in payables for purchases of investments	\$ (1,595) 83,204	4,408 (59,377)

(13) Subsequent Events

In July 2017, the University issued through RIHEBC tax-exempt bonds with a total par value of \$141,125 at an interest rate range of 4.00% to 5.00%, maturing in 2047. The bonds were sold at a premium of \$19,532, resulting in effective yield of 3.25%. The proceeds were used to refinance \$86,300 of Series 2007 tax-exempt bonds, with remaining proceeds to be used for capital projects.

Effective July 1, 2017, the University, along with The Neurology Foundation, Inc.; University Emergency Medicine Foundation; University Medicine Foundation; University Surgical Associates, Inc.; Brown Urology, Inc.; and Brown Dermatology, Inc. (collectively the foundations), joined to create the nonprofit Brown Physicians, Inc. (BPI). BPI is an affiliated clinical practice that will enhance the partnership between the foundations and the Warrant Alpert Medical School. Under the formation and support agreement, the University is obligated to pay BPI \$25,000 over a 10-year period. In addition, the University authorized a line of credit agreement with BPI, up to \$30,000.

The University considers events or transactions that occur after the balance sheet date, but before the financial statements are issued, to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure. These financial statements were issued October 24, 2017, and subsequent events have been evaluated through that date.

Notes to Supplementary Schedule of Expenditures of Federal Awards

Year ended June 30, 2017

(1) Basis of Presentation

The accompanying supplementary schedule of expenditures of federal awards (the Schedule) summarizes the expenditures of Brown University (the University) under programs funded by the federal government for the year ended June 30, 2017. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.* Because the Schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net assets or cash flows of the University. Negative amounts on the Schedule represent adjustments to expenditures reported in a prior year.

For purposes of the Schedule, federal awards include all grants, contracts and similar agreements entered into directly between the University and agencies and departments of the federal government and all subawards to the University by nonfederal organizations pursuant to federal grants, contracts and similar agreements. The Schedule also denotes awards passed through from the University to other nonfederal subrecipient organizations.

(2) Significant Accounting Policies

For purposes of the Schedule, expenditures for federal award programs are recognized as incurred using the accrual method of accounting and the cost accounting principles. Under these cost principles, certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

Expenditures under the research and development cluster include facilities and administrative (F&A) cost recoveries, relating primarily to facilities operation and maintenance; facilities and equipment depreciation; and general, divisional, and departmental administration services, which are charged to applicable federal grants under negotiated rates agreed to with DHHS, the University's federal cognizant agency. The University has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

Notes to Supplementary Schedule of Expenditures of Federal Awards

Year ended June 30, 2017

(3) Federal Student Financial Assistance

Student Loan Programs

The Federal Perkins Loan and Health Professional Student Loan programs are administered directly by the University and balances and transactions relating to these programs are included in the University's financial statements. Loan activities and balances consist of the following:

	Federal CFDA number	Balance as of June 30, 2016	Loans issued	Payments received and other adjustments	Balance as of June 30, 2017
Perkins Loan Program Health Professions Student	84.038	\$ 24,478,690	2,825,315	(4,033,973)	23,270,032
Loans (HPSL)	93.342	621,836	60,500	(92,266)	590,070
Totals		\$_25,100,526	2,885,815	(4,126,239)	23,860,102

For the year ended June 30, 2017, the University's recovered an administrative cost allowance of \$252,532 under the Federal Perkins Loan Program.

Federal Direct Loans

Federally-guaranteed loans awarded to students of the University during the year ended June 30, 2017 are summarized as follows:

Subsidized Stafford Loan Program	\$ 5,535,012
Unsubsidized Stafford Loan Program	17,448,373
PLUS Loan Program	 12,774,129
Total	\$ 35,757,514

The University is responsible only for the performance of certain administrative duties relating to Federal Direct Loans and, accordingly, these loans are not included in the University's financial statements. It is not practical to determine the balances of loans outstanding to students of the University under this program as of June 30, 2017.

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The President and Corporation Brown University:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Brown University (the University), which comprise the balance sheet as of June 30, 2017, the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated October 24, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of the financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Reports on Compliance for Major Federal Program and on Internal Control over Compliance Required by the Uniform Guidance

The President and Corporation Brown University:

Report on Compliance for Major Federal Program

We have audited Brown University's (the University) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the University's major federal program for the year ended June 30, 2017. The University's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for the University's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the University's major federal program. However, our audit does not provide a legal determination of the University's compliance.

Opinion on Major Federal Program

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2017.

Report on Internal Control over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on its major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for its major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
